

Route 5/15 Bridge over Main Street Demolition Work

Beginning the week of July 6, and for approximately one month, there will be nighttime demolition on the Route 5/15 Bridge over Main Street in East Hartford. This work is necessary for the widening of Route 5/15 northbound, as part of the I-91 Charter Oak Bridge Project. The bridge demolition work will require the closure Main Street at night, with detours in place, as appropriate, and may take place Monday, through Friday nights, from 8:00 PM to 6:00 AM. No work will be performed on Saturday or Sunday nights. The weekly schedule of anticipated work will be posted on our website – www.i-91CharterOakBridge.com.

Please be aware that construction noise will be unavoidable for this operation, and we appreciate your patience during this time. Please use caution when traveling through the construction sites, and follow the detour signs.

For your information, below is an aerial view, indicating the bridge for demolition.

If you have any questions or comments related to construction, please contact us directly:
